

Inquisitive Minds Workshops are designed to foster a love of Maths in students as they learn cooperatively and participate in a range of exciting hands-on challenges

FOR  
YEARS  
.....  
**3-6**

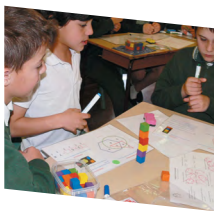

# out of the box

**Experience Maths as you  
have never seen it before...**

Workshops include an interactive lesson on strategic problem solving and a hands-on problem solving relay.

All Inquisitive Minds Workshops focus on working mathematically and strategic problem solving.

Teachers will be exposed to creative new ways of teaching problem solving as they participate in workshops.

"The most amazing Maths incursion I've ever attended! Great fun and engagement for all students regardless of ability. True differentiation in action, with great ideas to inspire better classroom practise. Thankyou!!"

*Ellen Payne*  
**Canley Heights Public School**

"Both our students and teachers found the Inquisitive Minds experience to be wonderful. Students were highly engaged in the problems and investigations and activities catered to all ability levels."

*Samantha Gooch*  
**Kambala School**

## In-school workshops

With four in-school workshops on offer, Stage 2 and 3 students are now able to participate in a unique Inquisitive Minds experience each year.

In-school workshops cater for students from a range of abilities, with basic up to highly complex questions on offer.

### Strategies taught include:

- Look for a Pattern
- Make a Model
- Draw a Diagram
- Working Backwards
- Logical Reasoning

Workshop questions draw from a range of content areas.

Schools may run up to 3 standard OOTB Workshops in a day.

Shorter and longer workshops available upon request.

Each workshop caters for up to 90 students.

For more information about OOTB Workshops, including photos, testimonials, FAQs, and an expression of interest form, go to [inquisitiveminds.com.au](http://inquisitiveminds.com.au)

## talented workshops

Enrich a group of your capable Stage 3 students by exposing them to a day of problem solving alongside like-minded peers.

Talented workshops cater for students who are good at and enjoy maths.

One school hosts the day and students from the hosting and surrounding schools participate.

Talented OOTB Workshops run over a period of four hours (breaks included).

Two unique workshops on offer (running on alternate years).

Go to [inquisitiveminds.com.au](http://inquisitiveminds.com.au) for details of upcoming events.
